

UNITED TO GROW FAMILY AGRICULTURE

Proposal for Change to 2016 Policy Book

The New England Farmers Union Policy Book is a dynamic, working document that reflects priorities of our region’s agricultural and fishing communities. Those priorities will change with time, and NEFU’s policies will also change. We invite our members to submit recommended changes, electronically or in hard copies (Note: no telephone submissions will be accepted.). The Policy Committee of NEFU’s board of directors will review all submissions at least 25 days prior to the annual meeting of the membership. If approved by the Committee, the proposed change will be presented to the annual meeting. Please send proposals no later than November 1.
